

GIOVANNI CAPRIGLIONE
TEXAS HOUSE OF REPRESENTATIVES
DISTRICT 98

January 22nd, 2024

To Whom It May Concern:

Over the past two years, we had great success working with our data privacy stakeholders to develop the nation's best data privacy law. As many of you will know, I intend to file a comprehensive artificial intelligence regulation bill in the 89th Legislature. I hope that we can continue to work together in a cooperative effort to ensure Texas can lead the nation when it comes to responsible AI development.

A comprehensive AI law will prove an even greater challenge than our data privacy effort, so I would like to begin our efforts now. To that end, we are sending this Request for Proposals/Information to help guide the development of our AI legislation.

On or before March 15th, 2024, please send us any information, comments, suggestions, model legislation, or policy research information on the following issues insofar as they relate to the topics of Artificial Intelligence, Machine Learning, Data, and Privacy:

- Frameworks for Risk Categorization
- Applicability standards
- Definitions of key terms
- Responsibilities of AI developers and deployers
- Opt-in/out for Automated Decision-making Systems
- Bias, effectiveness, impact, and other forms of testing
- Changes needed to the Texas Data Privacy and Security Act
- Regulatory regime
- 3rd-party audits
- Consumer rights
- Regulatory sandboxes and other measures to support innovation
- Workforce, Education, and Economic Development Efforts
- Laws effecting licensed professions, critical infrastructure, and government processes
- Any other relevant issues pertaining to AI

Please note that the above list is intended to be a useful reference to guide comments not an indication of future legislative intent nor is it meant to be a comprehensive list. Additionally, if there are models or other laws you find useful or not, please let us know.

If you would like to submit a comment or be included in future data privacy stakeholder meetings please email giovanni.capriglione@house.texas.gov with the subject line "AI Stakeholder". Please note your responses may be subject to Public Information Act requests.

We will aim to hold stakeholder meetings on these subjects as early as May 2024. As always, please feel free to contact my office with any questions or concerns. We look forward to continuing the conversation on AI throughout the year.

Respectfully,

A handwritten signature in black ink that reads "G. Capriglione".

Giovanni Capriglione
State Representative, District 98
